STATE OF MICHIGAN
DEPARTMENT OF STATE POLICE
EAST LANSING

JENNIFER M. GRANHOLM
GOVERNOR

COL. PETER C. MUNOZ
DIRECTOR

August 18, 2006

Dear Public Safety Official,

This letter is to announce that the Michigan State Police will release the following two applications:

1. *Lab and Case Management System (LCMS) - Effective January 3, 2007*
   The LCMS is a new application provided by the Forensic Science Division (FSD) to replace the outdated Laboratory Information Management System (LIMS). The new LCMS allows users to pre-log evidence from their respective offices, check current case status of evidence, and download and print case reports with the option of receipt by fax or email.

2. *Sex Offender Registry (SOR) – Effective February 1, 2007*
   SOR is being separated from LEIN and enhanced to be a stand-alone application. It will be upgraded in several phases over the next few years. Additional data will be collected as required by law and new tools will be available to manage records more effectively and to assist in enforcement efforts. Users will need to access this stand-alone application to register sex offenders and access information. Beginning in February, this will be the only access to the Sex Offender Registry.

The above applications will only be available through the Michigan Criminal Justice Information Network Portal (MiCJIN). The MiCJIN Portal provides a secure infrastructure with data encryption and single user sign-on and authorization to view all or selected portions of information. A wide range of software applications are available through MiCJIN in addition to the LCMS and SOR.

In order to gain access to these new applications, or to apply for other applications within the portal, agencies need to send an email with the word "*Application*" in the subject line to micjinmail@michigan.gov. Agencies may also contact the MiCJIN Service Center at (517) 336-6574. Due to the number of anticipated applications and the amount of time that will be required for processing, applications are requested to be submitted to the MiCJIN Service Center by October 1, 2006.

Sincerely,

DIRECTOR
